

Oil Specification For Vanguard 'Big Block's' V-Twin Air Cooled & Liquid Cooled

Lubrication Oil

There's a new recommendations for all Big Block's! (Listed Below)
Multi-grade oil => SAE 10W-40, SAE 15W-40, has to be used instead of the single grade SAE 30!!

If you are aware of any 'Big Block' engines currently with customers or end users, please instruct them to change the oil as soon as possible.

First start up instructions for all Big Block's

New engines should run without any load / drive belts for 1/2 minute to allow fill up of the lubrication oil-system.
